

Dear Sir or Madam:

The FCC limits on radio frequency need to be severely lowered. Multiple layers of electro smog are not being accounted for in the safety limits. More and more people are becoming severely sickened, are living out of their cars as a result of the so-called Smart Meters on and about their homes, and some are becoming severely violent from wireless radiation. People are having to give up their life savings and flee to the Radio Free Zone just to escape the unbearable health symptoms of environmental radiation exposure. There are over two thousand studies that have come across my computer indicating the horrific adverse biological effects of wireless radiation. We need to adopt the Precautionary Principle.

A single home may have forced pulsed radio frequency signals continuously, 24 hours a day, 365 days per year from:

- Wireless water meter transmitters
- Electric supplier meter transmitters with two wireless modems
- Gas company wireless meters
- Utility routers on poles

Non-pulsed radio frequency from:

- Cell towers
- Wireless home routers
- Personal cellular phones
- Wireless computer devices
- Wireless home security systems
- Cordless phones
- Baby Monitors

I had serious central nervous system injury and was hospitalized due to pulsed radio frequency via utility Smart

Meters. I began to develop a stutter, my memory was failing, I had heart attack symptoms, my internal organs began to heat up and felt like they would explode, I received shocks to my head and metal on my teeth, lost control of my bladder after walking up to a Smart Meter, had severe insomnia, chronic bronchial infection, numbness and tingling in my extremities, and extreme anxiety just to name a few of my symptoms. Our electric Smart Meter was removed, but I was not able to begin to function again at our home until two neighbors removed their electric Smart Meters. Nine months later, I have still not fully recovered.

The adverse biological effects of wireless radiation affect every cell in a person's body. Your tissue does not have to be on fire in order for damage to occur any more than your tissue has to be on fire to know that there are long term consequences to tobacco smoke, alcohol, and other drugs.

I urge you to act now to lower the permitted wireless radio frequency levels before you or someone you love begins to show the signs of radiation sickness. You too may find yourself facing a horrific health situation that is extremely difficult to cope with.

Sincerely,

Jamie Lehman
